About LMCC

The Lake Minnetonka Communications Commission (LMCC) is an agency formed by a Joint Powers Agreement between 11 area communities, whose purpose is to oversee the franchise agreement with the cable operator, currently Mediacom, and to provide quality Public, Educational and Government (PEG) programming. The Commission is composed of twenty-two members: two representatives from each of the eleven communities. The Full Commission meets on the second Thursday of the month, four times per year. The Executive Committee, elected annually, meets by request.

TV Production Workshops

LMCC provides area residents training in video production, free use of equipment and cable time on LMCC Community Access Channel 12. We maintain a variety of equipment for your use, which includes cameras, tripods, light kits, microphones and cables. We have a production studio, a Final Cut Pro non-linear editing station, a production van for on-location events, and plenty of cameras available for check out.

How Can You Watch LMCC Programming?

You need to be a Mediacom cable subscriber AND a resident in one of LMCC's 11 member cities, or the City of Mound. LMCC operates four cable channels: 8/HD 808, 12, 20 and 21. Programming is also available on the LMCC website at www.lmcc-tv.org

LMCC HD is HERE!

The Lake Minnetonka Communications Commission added our first High Definition channel in 2016. HD channel 808 can be found on Mediacom's HD Local Plus TV tier. HD 808 airs LMCC Member City government meetings and LMCC Commission meetings in crisp, clear high definition. If you don't have access to a high definition television set, don't worry! We will continue to broadcast the same meetings in standard definition on channel 8 on Mediacom's cable system here in the Lake Area.

In addition, we've upgraded our **production van's** equipment to HD as well. Now all staff-produced community programming (HS sports, concerts, and parades) is in glorious High Definition!

2016 Production Van HD Upgrade
